Allowable Subject Matter

1. The following is a statement of reasons for the indication of allowable subject matter: The applicant's amendment filed 30 May 2008 indicates that the applicant intends to seek protection only for tangible computer-readable media. This differentiates from non-tangible computer-readable media, such as carrier waves and modulated data signals. Further, the applicant has amended the specification to remove carrier waves and modulated data signals from the list of computer-readable media for which patent protection is sought. Based upon these amendments, the applicant's claim limitations make it clear that the applicant only intends to claim statutory inventions. Therefore, the rejection under 35 USC 101 has been withdrawn, and the applicant's claims are allowable.
